A 2018-19 student planner will be provided for each student at no cost.

Parents: Throughout the year, your child's teacher(s) will identify **items for donation** that will be appreciated. One such item is boxes of tissues for classroom use. If you would like to donate these, please send them in with your child. Thank you.

The TI-84 Plus Edition Graphing Calculator will be used regularly in Algebra and Geometry GT. Graphing calculators are an important technology used in Howard County mathematics courses beginning with Pre-Algebra GT and Math 8 and extending through the end of the mathematics course sequence. Although students will be provided with a graphing calculator for use in school, students are best served by having a personal calculator and becoming very familiar with how it is used to address a number of different types of mathematical problems. Students who go on to take mathematics courses in college will often be able to use the same calculator for college coursework.
